NoteraX

Remote, India

- Founded and launched NoteraX, a marketplace for quality study materials used by 50,000+ learners worldwide.
- Built the full-stack platform using ReactJS, NodeJS, and Firebase with advanced search and user authentication.
- Grew the platform to serve students and educators with notes, thesis documents, books, and academic projects.

PROJECTS

NoteraX. Built a trusted marketplace for educational materials where students and educators can buy and sell notes, books, projects, and thesis documents using ReactJS, NodeJS, and Firebase. Over 50,000 learners have joined the platform with powerful search capabilities. [NoteraX](#)

NevtaX. Developed an Android application aimed Nevta tracking application with family synchronization with excellent solution for maintaining the traditional Indian custom of gift exchange while leveraging modern technology. It replaces the traditional physical register (copy-pen ledger) used at weddings and events to track who gave what, and creates a living record that can be referenced when it is time to reciprocate at a later event.
